Product number
bss-2281

Class
Crop Pest, Weed, and Disease Control

Restrictions
Permitted as an algicide. Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. May only be used as an algicide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Peggy Miers
Executive Director/CEO

Product review is conducted according to the policies in the current OMRI Policy Manual and based on the standards in the current OMRI Standards Manual©. To verify the current status of this or any OMRI Listed product, view the most current version of the OMRI Products List© at OMRI.org. OMRI listing is not equivalent to organic certification and is not a product endorsement. It cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator’s responsibility to properly use the product, including following any restrictions.
