

Disease Control for Healthier Fruits and Vegetables

OxiDATE READY TO SPRAY

FOR FRUIT AND VEGETABLE GARDENS

Fruit and vegetable gardens are extremely susceptible to mold, mildew, and other fungal and bacterial diseases that, if left uncontrolled, could ruin an entire garden. OxiDate® Ready to Spray works immediately on contact, stopping disease as fast as you can spray.

New OxiDate RTS may be used as a preventative and curative spray treatment on any type of fruit or vegetable. There has never been a greater need for organic disease control, and OxiDate RTS is the perfect treatment for tomatoes, cucumbers, peppers as well as fruit and citrus trees.

OxiDate Ready to Spray controls both Bacterial and Fungal plant diseases such as:

- Early and Late Blight
- Powdery Mildew
- Downy Mildew
- Bacterial Spot & Speck
- Rust
- Bacterial Wilts

- ✓ Long-Lasting – Covers up to 12,000 sq. ft.
- ✓ Hooks Up to Hose for Quick Application
- ✓ Begins Working Immediately
- ✓ Meets National Organic Program Standards
- ✓ Alternative to Copper-Based Products

Available in 32 fl. oz. spray bottles.
