

Disease Control for Healthier Fruits and Vegetables

OxiDATE READY TO USE FOR FRUITS AND VEGETABLES

Fruits and vegetables are extremely susceptible to mold, mildew, and other fungal and bacterial diseases. OxiDate® Ready to Use has been proven effective at stopping disease on contact while being eco-friendly. It leaves no chemical residue behind and has been used in the professional agriculture industry for over ten years.

New OxiDate RTU may be used as a preventative treatment on any type of fruit or vegetable. There has never been a greater need for organic disease control, and OxiDate RTU is the perfect treatment for tomatoes, cucumbers, peppers as well as fruit and citrus trees.

OxiDate RTU is a preventative treatment for suppressing plant diseases such as:

- Powdery Mildew
- Downy Mildew
- Wilts & Blights
- Phytophthora
- Brown Rot
- Bacterial Wilt

- ✓ Proven Effective and Powerful
- ✓ Can be Used Around People, Pets, and Wildlife
