

# Disease Control for Healthier Flowers, Shrubs, & Lawns

## ZEROTOL READY TO SPRAY FOR FLOWERS, SHRUBS, AND LAWNS

New ZeroTol® Ready to Spray provides immediate disease control on lawns, flowerbeds, shrubs, and ornamental trees. It can be used as a preventative or curative application on ornamental plants such as rhododendron, azaleas, roses, and annual and perennial flower beds, making it the complete home & lawn solution.

As with all BioSafe Systems' Ready to Spray products, ZeroTol Ready to Spray leaves no chemical residues behind, making it the natural choice for use around children and pets.

### ZeroTol Ready to Spray kills plant diseases such as:

- Anthracnose
- Black Spot
- Powdery Mildew
- Rusts
- Botrytis/Grey Mold
- Leaf Spot

### ZeroTol Ready to Spray controls lawn & turf diseases such as:

- Dollar Spot
- Anthracnose
- Summer Patch
- Brown Patch
- Fairy Ring
