Derived from: Calcitic lime

Density 15.66 lbs./gallon at 68 F, contains 11.6 lbs. of calcitic lime or 4.64 lbs. of Ca • Neutralizing Index Zone (4) 70-79 for Liquid.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

Use within 30 days of purchase or agitate container periodically to keep material in solution.

Directions and Application: Shake thoroughly before using. Agitation is required when mixing. Suggested dilution rate for general use is 5-10 gallons of water to 1 gallon of Calcis if applying with a pump/sprayer system. **For more information on application methods and rates:** Consult an authorized BioSafe Systems Product Representative.

Caution: Harmful if swallowed. Avoid contact with skin. May cause respiratory irritation if mist or vapor is inhaled. Use in a ventilated area.

Limited Warranty: BioSafe Systems, LLC warrants that this product conforms to the Guaranteed Analysis on the label and is reasonably fit for the purposes referred to in the directions. BioSafe Systems makes no other expressed or implied warranty.

Limitation of Liability: In no case shall BioSafe Systems, LLC be liable for consequential, special or indirect damage resulting from use, application or handling of this product.

Liquid Lime Pond Supplement

Calcis is a proprietary micronized calcium carbonate suspension specially formulated for pond applications that safely and effectively harnesses natural limestone to raise alkalinity and hardness, adjust and buffer pH, add essential nutrients for pond life, and clarify water.

KEEP OUT OF REACH OF CHILDREN
DO NOT ALLOW TO FREEZE • SHAKE WELL BEFORE USE
