

## FIFRA SECTION 2(ee) USE RECOMMENDATION

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency.

**ISSUE DATE:**

September 1, 2020

**EXPIRATION DATE:**

June 1, 2023

**FOR USE AND  
DISTRIBUTION ONLY  
IN THE STATE OF:**

**CALIFORNIA**

**EPA REGISTRATION NO.** 89046-12-70299

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Pest:** Light Brown Apple Moth (*Epiphyas postvittana* (Walker) (Insecta: Lepidoptera: Tortricidae))

**Crops:** Alfalfa and Other Nongrass Animal Feeds, Asparagus, Avocado, Small Fruit and Berries, Bulb Vegetable, Citrus Fruit, Corn, Cotton, Cucurbits Vegetables, Fruiting Vegetables, Greenhouse and Outdoor Nursery Crops, Herbs, Spices and Mints, Hops, Kiwifruit, Vegetable and Cole Crops, Legume Vegetables, Malanga, Peanut, Pineapple, Pome and Stone Fruits, Canola/Rapeseed, Root and Tubers Vegetables, Safflower, Cereal Grains, Sunflower, Tobacco, Tropical and Subtropical Fruits, Watercress

**Rate (Pint/Acre):** 1.5-2.75

**Foliar applications:**

Apply at first signs of infestation when larvae are small, newly hatched, and actively feeding. Repeat applications, according to economic threshold, as necessary to maintain control.

BT NOW must be ingested by susceptible larvae to be effective. Thorough coverage of target foliage where larvae are feeding is essential. To improve wetting and distribution on difficult to wet foliage (e.g. crucifers), the addition of a wetting agent is recommended.

Make applications early in the morning, in the evening, or during overcast conditions for best results. Make sure to apply the product when there is little or no wind. Do not make early morning application if foliage is wet with dew to the point of runoff. Do not make applications when significant rainfall is imminent. BT NOW is more effective when rain is not forecasted within 24-48 hours following application. Dry weather will allow larvae to ingest a lethal quantity of spray deposits.

BT NOW may be applied up to and on the day of harvest.
