FIFRA 2(ee) Recommendation

**FOR USE AND DISTRIBUTION IN
THE STATES OF ARIZONA AND
CALIFORNIA ONLY**

October 3, 2018
OxiDate 2.0
EPA Reg. No. 70299-12

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Use site:
Ground Spray Treatments For Field-Grown Crops

Directions For Use:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product bulletin contains new or additional directions for use which are recommended by BioSafe Systems, LLC. under FIFRA Section 2(ee).

RATE OF APPLICATION	DIRECTIONS FOR USE
10 to 400 gallons of solution / acre	To ensure optimum product performance, use at the foliar application rate indicated in sufficient water for adequate coverage of plant foliage. Apply between 10 to 400 gallons per acre of total spray solution. Do not make applications at a height greater than 10 ft. above the plant canopy, unless a greater height is required for aircraft safety. Making applications at the lowest height that is safe reduces exposure of droplets to wind and evaporation. Do not exceed the maximum application rate or apply more often than labeled in the Application Instructions for that crop.
