

GC LIQUID OXIDIZER TREATMENT

SPECIMEN LABEL

CONTAINS:

Peroxyacetic Acid.....79-21-0..... 18.00%
Hydrogen Peroxide.....7722-84-1..... 27.00%

KEEP OUT OF REACH OF CHILDREN DANGER – PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

FIRST AID

If in eyes

- Rinse cautiously with water for several minutes.
- Remove contact lenses, if present and easy to do. Continue rinsing.

If on skin

- Take off immediately all contaminated clothing.
- Rinse skin with water/shower.

If swallowed

- Rinse mouth.
- Do not induce vomiting.
- Immediately call a POISON CENTER/doctor.

If inhaled

- Remove person to fresh air and keep comfortable for breathing.
- Immediately call a POISON CENTER/doctor.

HOTLINE NUMBER

For information on GC Liquid Oxidizer, including general health concerns, call 1-800-858-7378, Monday through Friday, 8:00 AM to 12:00 PM Pacific Standard Time. In the event of a medical emergency, call your poison control center at 1-800-222-1222.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

Keep away from heat, sparks or open flames, no smoking. Store away from combustible materials. Take any precautions to avoid mixing with combustibles. Do not breathe fumes, mist or vapors. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Wear protective gloves, clothing, eye protection, face protection. Use outdoors or in a well-ventilated area. Protect from sunlight. Store at temperatures not exceeding 55°C (131°F). Store in original container. In case of fire: Use water or other suitable extinguishing media. Absorb spillage to prevent material damage. Dispose of contents/container in accordance with local/regional/national/international regulations.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Corrosive. GC Liquid Oxidizer Treatment is a strong oxidizing agent that decomposes upon contact with water and organic materials. Keep product away from acids, other oxidizers and pesticides.

DIRECTIONS FOR USE

FOR SEWAGE WATER TREATMENT: Use GC Liquid Oxidizer Treatment for malodors caused by hydrogen sulfide gas.

SLUDGE ODOR CONTROL: Hydrogen peroxide and peroxyacetic acid (PAA) work together to immediately destroy sulfide molecules. Hydrogen sulfide measurements are made around the dewatering equipment. GC Liquid Oxidizer Treatment is applied at a convenient point either into the biosolids holding tank or directly ahead of the solids transfer pumps. The reaction with sulfides is immediate. Feed rates are adjusted to adapt to changing conditions such as flow and temperature. The direct injection of aqueous GC Liquid Oxidizer Treatment solutions into the wastewater biosolids may also be made.

ODOR TREATMENT: GC Liquid Oxidizer Treatment is a powerful oxidizing agent that uses hydrogen peroxide and PAA to eliminate odors on contact.

WARRANTY

This material conforms to the description on the label and is reasonably fit for the purposes referred to in the directions for use. Timing, unfavorable temperatures, water conditions, presence of other materials, method of application, weather, watering practices, nature of soil, incompatibility with other chemicals, pre-existing conditions and other conditions influencing the use of this product are beyond the control of the seller. To the extent consistent with applicable law, buyer assumes all risks associated with the use, storage, or handling of this material not in strict accordance with directions given herewith. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE.

Hazard Statements: May intensify fire, oxidizer. Harmful if swallowed. Causes serious eye damage.

For specific treatments, see FIRST AID section on SDS or label.
