

OXYFUSION®

Unlike traditional methods, this on-site, on-demand product allows customers to dose the exact amount and concentration of peroxyacetic acid (PAA) needed for their application.

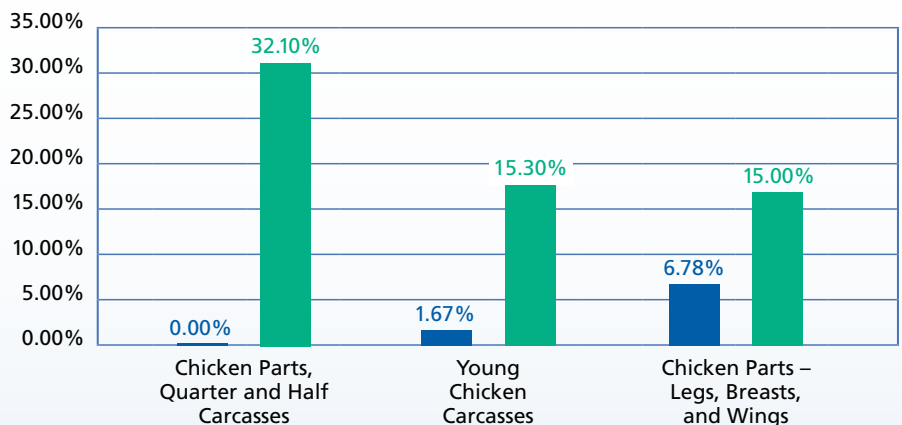

Features	Standard PAA	OxyFusion PAA
On-Demand PAA Production		●
Little to No Odor		●
No Harmful Residuals	●	●
Kills Pathogens on Contact	●	●
Highly Concentrated/Cost-Effective	●	●
Effective Biofilm Remover	●	●
No Discharge Restrictions	●	●

Campylobacter

BioSafe Systems conducted a trial at a poultry processing plant from January 2021 through August 2021. The featured graph compares incidences of Campylobacter after treatment with BioSafe Systems' OxyFusion PAA with the industry average.
