If inhaled Remove person to fresh air and keep comfortable for breathing. Call a poison

center or doctor if you feel unwell.

Acute and delayed symptoms and effects: May cause respiratory irritation. Signs/symptoms may include burning pain in the nose and throat, coughing,

wheezing, or shortness of breath.

In case of skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower

for at least 15 minutes. Call a poison center or doctor if irritation develops or

persists. Wash contaminated clothing before reuse.

Acute and delayed symptoms and effects: Causes severe skin burns. Signs/symptoms may include localized redness, swelling, itching, intense

pain, or blistering.

In case of eye contact Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Immediately call a poison center or

doctor.

Acute and delayed symptoms and effects: Causes serious eye damage. Signs/symptoms may include cloudy appearance of the cornea, chemical

burns, severe pain, or significantly impaired vision.

If swallowed Rinse mouth. Do NOT induce vomiting, Immediately call a poison center or

doctor. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Never give anything by mouth to an unconscious person.
