

ZeroTol®

HIGH VELOCITY ALGAECIDE, FUNGICIDE

KEY POINTS

27% Hydrogen Peroxide  0-hour REI

- 1 **Immediate Pathogen Knockdown**
Flexible application for any program
- 2 **Universal Tool for Clean Greens**
Broad spectrum chemistry enhances performance of tank-mix partners
- 3 **Improved Performance**
Elevate operation efficiency and safety

ZeroTol oxidizes algae and fungal pathogens on contact, giving turf professionals a quick control option for managing disease pressure. The non-residual mode of action supports IPM programs, resistance management, and improves overall safety of workers and players.

APPLICATION RATES

Anthracnose	190 mL of ZeroTol in 11-19 liters of water/100 m ²
Brown Patch	400 mL of ZeroTol in 11-19 liters of water/100 m ²
Algae	200 mL of ZeroTol in 11-19 liters of water/100 m ²
Dollar Spot	20-382 mL of ZeroTol in 12 liters of water/100 m ²
Pink Snow Mould <i>Microdochium nivale</i>	64 mL of ZeroTol in 10 liters of water/100 m ²

For best results, apply after grass has been cut
